Dr. Krueger is very knowledgeable and nice. His lectures are very well organized and he takes extra time outside class to discuss with and help students.

This was a great course. Tough, to be sure, but well-taught.

This course was very challenging in all aspects, including topics covered in lecture, homework, and exams, and it took a lot of time outside of class to understand the material. However, this course was also very rewarding, as it gave me a great perspective of graph theory and covered a large range of topics. The professor was also very supportive and helpful, and his office hours were always great to visit and ask questions at.
